## MEMO

TO: Agency Executives  
FROM: Dick Bargans, Secretary for Personnel  
RE: 1965-1966 Personnel Questionnaire

Our annual personnel questionnaire has been limited this year, to the following key areas of information.

1. Current, full-time professional employees
2. Staff turn over
3. Training data
4. Personnel practices related to civil rights and social action.

The information on staff and training data continues to be most important; showing us who is employed, what they do, indicating trends and suggesting courses needed at the Training Center.

The NFS Personnel Standards and Practices Committee invites your help in a review of point 4, above, outlined on pages two and three of the attached questionnaire. They look forward to having the benefit of your experience at the time of their meeting in early November. Your contribution will be most significant in considering any changes in our Recommended Personnel Practices related to civil rights and social action.

Your cooperation in returning this questionnaire at your earliest convenience will be most appreciated. Best wishes to you and your staff for a very enjoyable summer.
